DESIGN LANGUAGE

ROUGH ON PURPOSE. V0.1

STEM SEPARATOR + MIDI TRANSCRIBER

No Python at run time. No mercy. Your weights, your noise.

THE RULES

BREAK THE LOOK, NEVER THE TOOL.

01 LOUD BEFORE PRETTY

One shout per screen. A huge condensed headline, then shut up.

02 NOTHING SITS STRAIGHT

Tilt scraps, tape and headlines 1-4°. Never tilt a button, input or number.

03 PHOTOCOPY IT

Grain and toner on surfaces and display type. Body text stays clean.

04 ONE HOT COLOR

Each app owns one: Explode = hazard, Surveil = phosphor, hub = riot red.

05 TAPE, DON'T BOX

Torn paper, tape and stamps replace cards, soft shadows and gradients.

06 SAY IT PLAIN

Verbs over vibes: RIP, DROP, TAP, BLOW IT UP. Never 'unlock your creativity'.
